Urge Gov. Crist to Sign Pro-Life Bill

URGENT ACTION ALERT: On April 30, 2010, the Florida Legislature passed **HB 1143**, a bill with several great pro-life provisions.

The bill will help protect women by requiring an ultrasound prior to having an abortion and give mothers the option to view it and receive more information. It also prohibits taxpayer funding of abortions in Florida.

We believe this bill is THE most significant piece of pro-life legislation ever passed in Florida's history. But it does not become law unless Gov. Charlie Crist signs it.

**"For you created my inmost being; you knit me together in my mother's womb."
-Psalm 139:13**

According to Florida Family Action President John Stemberger, "Apart from the reversal of Roe v. Wade, this is the single greatest legal or policy measure the state of Florida can take to significantly reduce abortions statewide."

The bill also prohibits federal, state, or local government from compelling a person to purchase Health Insurance.

Please contact Governor Crist today and respectfully urge him to sign this landmark pro-life bill HB 1143 into law. Phone calls are most preferred, faxes second and e-mails third.

**Phone: (850) 488-7146 or (850) 488-4441
Fax: (850) 487-0801
